Work Experiences

Team leader & Solution architect @Meggitt SA
APR 2018 – Now   C#, WPF, .Net core, Azure, Angular, AWS
Leading and mentoring the development team(5 dev), including the architecture of our new application and our future cloud based solution.

Senior Developer & Team leader deputy @Meggitt SA
FEB 2014 – Now   C#, WPF, Winform, WCF, EF
We build a complex project, responsible of handling data (several TB/days) coming from hardware devices, store them. The solution is composed of multiples applications, to configure devices, generate alarms, do live analysis and monitoring. I successfully setup the agility (DAD, an extent of scrum) in our team.

Developer & Project manager @Infoteam SA
FEB 2010 - JAN 2014   C#, WPF, WCF, EF, MS SQL Server, PHP
Main projects at Infoteam for which I was either developer or project manager:

Eauservice: Development of the system managing the whole water supply of the city of Lausanne. C#, MS SQL Server

RS Solution: Web application to manage the workflow between brands, printers and graphists. C#, Asp.Net MVC, MS SQL Server

GfK: Application to manage the installation of equipment. C#, WPF, WCF

Web hosting manager @Omne Sàrl
APR 2007 - JAN 2010   Java, PHP, Javascript, Bash
I oversaw the web hosting of more than 300 customers, making me aware of the caution required when updating system used daily by a lot of people

Education

Microsoft Azure Developer associate
June 2021
Validating my knowledge with Azure environments with an Azure certification

Scrum.org: Professional Scrum Master I @ISEIG
MAY 2017 - JUN 2017
